EMPLOYMENT HISTORY

Year Of Exprience	4 years
--------------------------	---------

Background	<p>I am a dedicated and skilled civil engineering professional with a strong track record in both the construction and public sectors. My career began at the State Engineering Corporation of Sri Lanka, where I worked as a Civil Superintendent from May 7, 2019, to September 30, 2020. During this time, I gained substantial knowledge and hands-on experience, particularly in managing the Pre-Cast Yard project in Ekala. My responsibilities included overseeing pre-stressing work, completing detailed checklists, preparing test reports, and supervising the carting of pre-cast items. These tasks helped me develop a keen eye for detail and an unwavering commitment to quality, safety, and efficiency. Following this, I transitioned to my current role as a Technical Officer at Nattandiya Pradeshiya Sabha in October 2020. In this capacity, I am responsible for estimating projects, approving house plans, and addressing public complaints. My work in this role has deepened my understanding of urban planning, regulatory compliance, and the critical importance of effective communication with both clients and the community. As an employer, I bring a strong sense of leadership and responsibility, consistently ensuring projects are completed to the highest standards and within established timelines. I am a proactive problem-solver, capable of analyzing complex issues and finding practical solutions. With an eye for detail and a commitment to precision, I take pride in my ability to lead teams, maintain transparent communication, and adapt quickly to new challenges. My continuous pursuit of growth and learning drives my professional development, ensuring I stay at the forefront of the industry.</p>
