EMPLOYMENT HISTORY

Year Of Exprience 7

Background	<p>I have over seven years of experience working in farming and agriculture. Currently, I am employed at Dearnsdale Fruits in the UK, where I started in November 2022. My role here includes a variety of responsibilities, such as preparing the soil, planting seeds, and ensuring proper spacing for optimal growth. I also take care of the crops throughout their growth cycle by watering, fertilizing, and keeping an eye out for any pests or diseases that might affect their health. When the crops are ready to be harvested, I assist in either manually collecting them or using machinery to ensure everything is done efficiently and at the right time. Before moving to the UK, I spent five years working on my family's farm in Nepal. This experience gave me a solid foundation in farming, as I was involved in every part of the farming process. I learned how to manage the land, care for crops, and deal with the day-to-day tasks of running a farm. Working in a family-run environment also taught me the value of hard work and teamwork, as we had to rely on each other to make sure the farm ran smoothly. I am passionate about agriculture and enjoy the hands-on nature of the work. My experience has given me a strong understanding of both traditional and modern farming techniques, and I am always looking to improve my skills and knowledge in this field. Working outdoors and contributing to the growth of healthy, sustainable crops is something I take great pride in.</p>
